Author's Notes:
This is for Log when he takes Duna away. Long live spontaneity. Insert your usual disclaimer stuff here.

He was a man of average height, bit on the anorexic side at some stages. Loved exploring types of guitar strings:
"Really like the fat one," said someone who was high on acid, didn't have a clue.

And he remembers that one time where they ate cake till it all blew over, wishes had one now, just like it. And you get the old fanatic stating they know Mick 'cause they met him once. Yeah, it was 1984. Like people don't change.

And they wrote smut about everyone. He wasn't often mentioned and rightly so. Don't ruin this classy man.
